MUDASIR (AI Researcher / Full Stack Developer / Flutter / iOS / Android)

Email: *mudasir13cs@gmail.com*
Mobile: *+82 (102) 503-0971 / +92 (304) 251-5191*
Linkdin: *https://www.linkedin.com/in/mudasir-sayed/*
GitHub: *https://github.com/mudasir13cs/*
Hugging Face: *https://huggingface.co/mudasir13cs*

Address: *126-45 Sangdo-dong*
CNIC: *41203-1813635-5*
Passport: *AL0416352*
Date & Place of birth: *20-02-1992, Sindh, Pakistan.*
Nationality: *Pakistani*

Personal Profile

Driven, goal-oriented team player eager to apply software engineering academic and professional training and experience towards launching a successful career with a progressive company that rewards initiative and superior performance with long-term opportunities for professional growth

Technical Skills/Computer Programs

- **Web Development:** *Python, PHP, NodeJs, HTML5, Bootstrap, JavaScript, CSS, Angular, and JQuery.*
- **Mobile Development:** *Objective-C, Swift, Flutter, Ionic, AngularJS, Native (iOS, Android)*
- **Object-Oriented Programming (OOP):** *PHP, Python , Objective-C, Swift, JAVA*
- **PHP CMS & Frameworks:** *Laravel, CodeIgniter, WordPress*
- **Database Management:** *MySQL, SQLite, Vector Databases, and Graph Databases.*
- **Data Interchange:** *JSON (Accessing web data via JSON on mobile and web platforms)*
- **Machine Learning & AI:** *Python, TensorFlow, Keras (basic ML models, data preprocessing, training neural networks)*
- **Data Analysis:** *Python (NumPy, Pandas), working with datasets, data visualization*
- ***IDEs:*** *PhpStorm, NetBeans, XCode, WebStorm, PyCharm, Android Studio*
- **Multimedia Design***: Adobe Photoshop (basic design and editing skills)*

Publications

- *Syed Mudasir, Abdul Waheed Agha, Syed Muzamil Hussain, and Sun-Tan Chung, "Field-Adaptive Dense Retrieval of Structured Documents," Journal of the Korea Multimedia Society, Vol. 28, No. 8, pp. 1001–1014, Aug. 2025. https://www.dbpia.co.kr/journal/articleDetail?nodeId=NODE12352544*
- *Tran, Q.-B.-H.; Waheed Agha, A.; Chung, S.-T. "Robust Text-to-Cypher Using Combination of BERT, GraphSAGE, and Transformer (CoBGT) Model." Applied Sciences, Vol. 14, No. 17, article 7881, Sept. 4 2024. DOI: 10.3390/app14177881. https://www.mdpi.com/2076-3417/14/17/7881*

Work and Experience

Research Assistant
03/2024 to current

Soongsil University.
Seoul, South Korea

- *Assisted in developing and optimizing machine learning models, focusing on generative AI techniques such as GANs and Transformers for advanced data-driven research applications.*
- *Conducted research on cutting-edge machine learning algorithms, improving model performance through data preprocessing, feature engineering, and hyperparameter tuning.*
- *Developed and implemented generative AI models for experimentation and evaluation, contributing to research publications and presentations of complex data insights.*
- *Worked with state-of-the-art models, including GPT-4, GPT-3 (OpenAI), LLaMA (Meta), and BERT (Google), to explore, fine-tune, and evaluate large language model performance across various tasks.*
- *Served as a Teaching Assistant, supporting faculty in conducting student lab sessions and tutorials for Python programming, web development, and database systems courses.*
- *Assisted students with practical exercises, project guidance, and debugging to strengthen their technical problem-solving skills.*
- *Worked as a Grader, reviewing and evaluating assignments, projects, and lab work to ensure accuracy.*

Consistency and adherence to course standards.

Full Stack Developer (Part-time) — 03/2024 to current

Cublick Digital Co., Ltd., — **Seoul, South Korea**

- *I was responsible for the development and maintenance of mobile and web applications, specifically focusing on Android digital signage solutions, which significantly enhanced system performance, scalability, and user engagement.*
- *I have extensively worked with Flutter, AngularJS, and native Android technologies (Java, Kotlin) to build responsive, high-performance applications.*
- *I have designed and implemented robust backend services using Node.js, NestJS, and MongoDB, ensuring secure, efficient, and scalable data handling.*
- *Implemented AI-driven features through external API integrations to enhance content recommendations, real-time analytics, and user interaction within digital signage systems.*
- *Collaborated with cross-functional teams to optimize system architecture, streamline deployments, and deliver seamless mobile-first solutions.*
- *I concentrated on executing end-to-end full-stack development, which encompassed UI/UX optimization, API design, and performance enhancement for digital signage platforms.*

Team Lead & Senior Mobile Application Developer, — 06/2023 to 02/2024

Progatix — **Karachi, Pakistan**

- Managed and led a cross-functional development team using **Agile methods** to make sure that mobile and server features were delivered on time and that tasks were coordinated.
- Focused on developing **native** and **hybrid** mobile applications using **Flutter** and **iOS** (**Objective-C, Swift**).
- Built RESTful APIs using **NestJS** to support mobile app backend services.
- I leveraged Flutter's capabilities to develop cross-platform mobile apps, ensuring a unified codebase.
- I integrated social logins such as Google and Facebook, mapping services like Google Maps, Apple Maps, and Mapbox, and various payment APIs like PayPal and Stripe to facilitate seamless user authentication and checkout processes in mobile applications.

Sr. Full Stack Software Developer — 12/2015 to 05/2024

Wiztech Pakistan (Pvt.) Ltd., — **Karachi, Pakistan**

- Worked with **Laravel**, **CodeIgniter**, **Flutter**, **Ionic**, **AngularJS**, and **Native iOS** (Objective-C, Swift).
- I utilized PHP, Laravel, and CodeIgniter to develop web services.
- I have developed both **native** and **hybrid mobile applications**.
- I developed **hybrid apps** using Flutter, Angular, and Ionic.
- I incorporated social logins such as Google and Facebook, mapping services such as Google Maps, Apple Maps, and Mapbox, and various payment APIs into my applications.
- Integrated **Bluetooth Low Energy (BLE)** in native iOS apps.

➢ **Pool Synergy Calculation:** A native application for fetching records from a **Water Link Spin Touch device** using Bluetooth Low Energy (BLE) and garnering reports.
Application Link: https://apkpure.com/ru/pool-synergy-calc/com.wiztech.poolSynergyCalc

➢ **Let's Procure:** It's a hybrid application developed on Flutter for procurement reporting.
Application Links: https://play.google.com/store/apps/details?id=com.wiztech.lets_procure
https://apps.apple.com/cn/app/lets-procure/id1466593663?l=en

➢ **INDEL (Hybrid Application):** An online attendance system for security guards, specifically developed to maintain the attendance of `INDEL` clients.
Application Links: https://itunes.apple.com/us/app/indel/id1441030556
https://play.google.com/store/apps/details?id=com.pkols.indel

➢ **LolyHub IOS: :**a new digital platform for loyalty program members, With this app, you can add and exchange existing rewards or loyalty points from other membership programs you have into your LolyHub account unified wallet.

Review Video: https://www.youtube.com/watch?v=23_Bh_FOCcc

➢ **Rent College Pads:** A Native (IOS) Mobile application for **searching** apartments near campus.

Application Links: https://apkpure.com/college-pads/com.wiztech.Rentcollagepads

- **Auto service repair:** A hybrid (ionic) mobile application for **Auto Service Repair**.

  Application Link: https://apkpure.net/tr/auto-service-repair/com.wiztech.autoservicerepair
- **Tap n' Save** is a loyalty application developed on native platform form where main street merchants and local businesses give shoppers small rewards
  Application Link: https://apkcombo.com/tap-n-save/com.itgc.pipopri/
- **HubPro:** It is a hybrid mobile app where multiple schools can login and parents can easily track their children's educational performance.
  Key Features: Upload/Download daily homework, Call meeting, Event Calendar, Subscribe multiple schools, Schools marketing
  Application Link: https://apkcombo.com/fr/hubpro/com.wiztech.HubProApp/
- **HubPro Tracking:** It is an application for tracking a school's driver. Parents can see their children's location by using a web portal.

  Application Link: https://apkpure.com/hubpro-tracking/com.wiztech.prohub

- **School Management System and Website:** St Peters School Karachi
- **Hayat Galleria:** An e-commerce web application
  - http://hayatgalleria.com/
- **Direkten Nöje Casablanca:** An e-commerce native application allows bookings directly from your phone.
  Key Features: table booking, booking by phone call, payment through PayPal, cash on delivery.
  Application Link: https://apkpure.com/direkten-n%C3%B6je-casablanca/com.connect4apps.DNC

Software Engineer

02/2015 to 11/2015

Verge Systems PVT Ltd., Hyderabad, Pakistan

- Worked with **CMS & Frameworks**: WordPress, CodeIgniter.
- Integrated **Bar Code Reader** and **RFID** solutions.
- Contributed to the development of a **fintech application**.

- **Financial Management**: A web-based, general-purpose ERP system designed for streamlined financial operations.

Key Features: Management of accounts, vendors, customers, and comprehensive reporting.
Website: http://verge.vergef.com

- Loan Management System: A web-based system developed for the SAFCO Support Foundation to manage loans.

Key Features: Includes employee management, organization management, microfinance management, account management, report generation, and integration with SAFCO's finance management system.
Website: http://mms.safcosupport.org/

- **Finance Management System**: A web-based ERP solution for the SAFCO Support Foundation.

Key Features: Manages accounts, vendors, customers, and reports and integrates seamlessly with the SAFCO Loan Management System.
Website: http://fis.safcosupport.org/

- **CSSP**: Website for the Civil Society Support Program (CSSP).
- **AHAN**: Website for Aik Hunar Aik Nagar (AHAN), a skills development initiative.
- **MDCPK**: Website for the Micro Development Centre Pakistan (MDCPK).
- **SAFCO Support**: Website for the SAFCO Support Foundation, focused on social and economic development

Education

Master of Science: AI Convergence **(Expected Jan 2026)**
Soongsil University, Seoul, South Korea.

Master of Science: Computer Science **2018**
Muhammad Ali Jinnah University, Karachi, Pakistan

Bachelor of Computer Science, **2015**
University of Sindh, Jamshoro, Pakistan

Diploma in Information Technology (DIT), **2010**
Trade Testing Board, Karachi, Pakistan.

Other Courses & Certifications

Power Searching with Google **2012**
(Certificate from Google)

Computer Course Certified **2006**
(Info Tech Academy Sita Road Dadu)

.
